Dear Harold:

I am answering your letters of the 9th and 11th, and will make some effort through my sources in Europe to see what we can find out about the Lamarees and the other people of interest.

I have not heard from William Boxley, although I was told that he was planning to see me for a job.

When you get the film located, I will re-evaluate my position here to see if we can do something about it.

Very truly yours,

Paul
